NO. 65895-T

APPLICATION FOR PERMISSION TO CHANGE POINT OF DIVERSION, MANNER OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Date of filing in State Engineer's Office JAN 20 2000

Returned to applicant for correction _____

Corrected application filed _____

Map filed FEB 01 2000 under 65885-T

The applicant **Getchell Gold Corporation**, hereby makes application for permission to change the **Point of diversion and place of use of all of water heretofore appropriated under Permit 62688 (Pit Perimeter Well PW-5A)**

1. The source of water is **underground**
2. The amount of water to be changed **0.117 CFS; 27.601 MGA (full amount of Permit No. 62688)**
3. The water to be used for **mining, milling and dewatering**
4. The water heretofore permitted for **mining, milling, and dewatering**
5. The water is to be diverted at the following point **within SE¼ SW¼ section 33, T39N, R42E, MDM at a point from which the SW corner of said section 33 bears S 70° 36' 11" W, 2229.19 feet distant, from a pumping station known as the Getchell Main Pit Pumping Station.**
6. The existing permitted point of diversion is located within **SE¼ SW¼ section 33, T39N, R42E, MDM at a point from which the SW corner of said section 33 bears S 69° 13' 03" W., 2261.13 feet distant, from a pit perimeter well known as PW-5A.**
7. Proposed place of use within **sections 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 28, 29, 32, 33, 34, 35, and 36 in T39N, R42E, MDM; and sections 1, 2, 3, 4, 9, 10, 11, 12, 13, 14, 15, and 22 in T38N, R42E, MDM**
8. Existing place of use within **sections 21, 22, 23, 26, 27, 28, 29, 32, 33 and 34 in T39N, R42E, MDM and sections 3, 4, 9, and 10 in T38N, R42E, MDM.**
9. Use will be from **January 1 to December 31 of each year.**
10. Use was permitted from **January 1 to December 31 of each year.**
11. Description of proposed works **The Getchell Main Pit Pump Station is an existing pumping station housed in a metal building, located in the bottom of the Getchell Main Pit, consisting of two sets of dual stage Warman centrifugal pumps. Flow measuring devices are located on the discharge lines. The intakes for these pumps pull water from a concrete sump and settling basin that gathers mine drainage and runoff water from within the Getchell Main Pit and the Getchell Main Underground Mine. The pumps deliver water to a valve manifold which can be adjusted to direct the water into three 12-inch HDPE discharge pipes. These pipes carry the pumped water up and out of the pit to a saddle on the south side of the pit, for further distribution and use, or infiltration. To accompany Getchell Gold Corporation's TEMPORARY APPLICATION FOR PERMISSION TO CHANGE POINT OF DIVERSION, MANNER OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED for the following parent application numbers: 52476, 58406, 61601, 61602, 61603, 61604, 61605, 62686, 62688, and 62689.**

65895-T

12. Estimated cost of works \$0; the works are existing.

13. Estimated time required to construct works 0 years; the works are existing.

14. Estimated time required to complete the application of water to beneficial use 5 years

15. Remarks: This water is to be pumped from the Getchell Main Pit Pumping Station. The pumpage will serve to dewater the Getchell Mine underground workings. The water will be used for miscellaneous mining purposes including mining, milling, dust control, and drilling. Unused water will be treated and reinfiltrated to the ground water basin.
